

4192 John Young Parkway  
Orlando, FL

To whom it may concern,

This letter is written on behalf of Portable Air and the excellent customer service they have brought to the table for our annual Park Avenue Fashion Week event. The event features one of the largest built enclosed temporary structures in Central Florida, seating over 1,000 patrons with a full restaurant area, chic runway and VIP lounge created by Karl's Event Services. Portable Air supplies the electricity and air conditioning to the venue, and has done so for several years.

Their ability to be on-site for the duration of setup and the actual event is a great asset to our production team, and they've worked wonders for us at the drop of a dime in recent memory. I would recommend Portable Air for any temporary power and air conditioning job of any kind.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dan Leaphart". The signature is stylized and fluid.
