

Greg,

It was a pleasure to meet you a few weeks ago when you were in Charlotte for the DNC. I appreciate all of your help getting Steven back in town early for my event on 9/14 and wanted to send you a follow up email about my experience with him.

I've worked in the events industry for close to 8 years now and generators/distribution/HVAC have never been my strong suit, which is unfortunate as I've had my fair share of "incidents"...storms knocking out something, lights out, hot tent, tripped circuits, etc. Steven was an amazing asset throughout the entire event...quickly troubleshooting issues, suggesting distribution efficiencies to help reduce our daily fuel consumption and helping me with things that were above and beyond the call of duty, like hauling trash to the dumpster. He was always helpful, prompt, courteous and a pleasure to be around. My peace of mind, for sure! I am forever spoiled and can only hope that future companies I work with have on site techs as awesome as Steven.

I will be sure to keep Portable Air in mind for any future jobs and happy to refer you to others in the event industry. Take care and thanks again for all of your help!

Rebecca
